

Media Release

Cognitec Exhibitor at ISC West

Dresden/Las Vegas, March 23rd, 2009. Cognitec Systems GmbH, - a leader in face recognition technology and systems, will be presenting its latest products at the ISC West International Security Conference and Exposition to be held at the Sands Expo and Convention Center, Las Vegas, USA, April 1st – 3rd, 2009.

Cognitec's presentation includes:

- A new version of Cognitec's biometric face recognition software for video surveillance: System used to support person identification through video surveillance cameras uses multiple cameras to identify persons in real time, based on Cognitec's unique face tracker technology. This is a technology that can be integrated into any video recording or surveillance solution.
- Face recognition on a handheld device: Cognitec 1:1 and 1: Many facial comparison technologies are now available on mobile units enabling users to identify persons independent of network connection.

About Cognitec

Headquartered in Dresden, Germany and offices in Herndon, VA; Miami, FL; Rio de Janeiro, Brazil; and Hong Kong, China, Cognitec develops markets and deploys the well- established and market leading FaceVACS® face recognition software to global customers and government agencies. Cognitec's software experts have been developing face recognition technology since 1995. In various independent evaluation tests including the Face Recognition Vendor Tests in 2002 and 2006, FaceVACS® has proven to be the leading technology available on the market.
