

## Media Release

### Cognitec Exhibiting at TranSec World Expo

**Dresden/Amsterdam, May 28, 2009. Cognitec Systems GmbH, - a leader in face recognition technology and systems, will be presenting its latest line of products at the TranSec World Expo 2009 to be held at the Amsterdam RAI, Amsterdam, June 3<sup>rd</sup> & 4<sup>th</sup>.**

Cognitec's presentation includes:

- Cognitec's surveillance software: System used to support person identification through video surveillance cameras uses multiple cameras to identify persons in real time, based on Cognitec's unique face tracker technology.
- Face recognition on a handheld device: Cognitec 1:1 and 1:many facial comparison technologies are now available on mobile units enabling users to identify persons independent of network connection.
- Image capturing and quality assessment based on ISO criteria for ePassport images: Cognitec's solution features real-time feedback to persons being photographed as well as advanced camera control which ensures the capturing of optimal images. Existing images can be checked as well to make sure that only ISO compliant images will be accepted for document issuance.

#### About Cognitec

Headquartered in Dresden, Germany and offices in Herndon, VA; Miami, FL; Rio de Janeiro, Brazil; and Hong Kong, China, Cognitec develops markets and deploys the well-established and market leading FaceVACS® face recognition software to global customers and government agencies. Cognitec's software experts have been developing face recognition technology since 1995. In various independent evaluation tests including the Face Recognition Vendor Tests in 2002 and 2006, FaceVACS® has proven to be the leading technology available on the market.
