

Media Release

Cognitec at Biometric Consortium Conference 2009

Dresden/Miami/Tampa, September 15, 2009. Cognitec Systems, - a leader in face recognition technology and systems, will be presenting its latest line of products at the Biometric Consortium Conference to be held at the Tampa Convention Center, Tampa, Florida September 22nd – 24th.

Cognitec's presentation includes:

- Face recognition VideoScan software: Person identification through video surveillance cameras using multiple cameras in real time, based on Cognitec's unique face tracker technology.
- Face recognition DBScan software: Cognitec's well established technology to identify duplicates in very large image databases.
- Face recognition on handheld devices: Cognitec 1:1 and 1:many face recognition technologies are now available on mobile units enabling users to identify persons independent of network connection.
- Image capturing and quality assessment based on ISO criteria for ePassport images: Cognitec's solution features real-time feedback to persons being photographed as well as advanced camera control which ensures the capturing of optimal images. Existing images can be checked as well to make sure that only ISO compliant images will be accepted for document issuance.

About Cognitec

Headquartered in Dresden, Germany and with offices in Miami, FL; Rio de Janeiro, Brazil; and Hong Kong, China, Cognitec develops, markets and deploys its well-established and market leading FaceVACS® face recognition software to global customers and government agencies. Cognitec's software experts have been developing face recognition technology since 1995. In various independent evaluation tests including the Face Recognition Vendor Tests in 2002 and 2006, FaceVACS® has proven to be the leading technology available on the market.
